

DIY Crinkly Sock Toy

Time: 10 minutes

Materials: Sock, cellophane wrap (or another safe/nontoxic crinkly material i.e. newspaper, chewy box paper filling, wrapping paper, etc.), scissors, catnip (optional)

Meant for: Cats

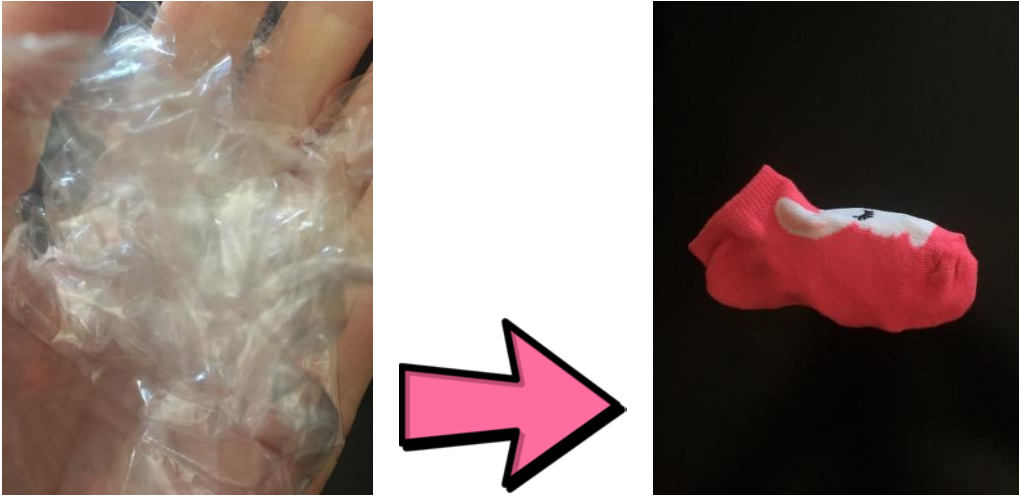

Tips: Put a little catnip inside your sock to add some pizzazz to this toy. Ankle socks work best so they come out "mouse sized".

You'll see here the crinkle of the cellophane by itself already has their interest!

Line your sock up with the cellophane and cut vertically along the width of your sock. No measurements needed, if the amount you cut fits into the sock, you are set!

Next, you will crinkle that cellophane up and insert into your sock.

Then tie off & toss!
