

Pupsicles

Time: 12 hours

Materials: Paper/plastic cups of varying sizes and/or ice cube trays, meat broth or water, food combination of your choice: dry food, treats, canned food, peanut butter, etc.

Meant for: Dogs

Add food mixture to cups and/or ice cube trays. Pour broth or water into the container—fill about 3/4 of the way. Freeze overnight. Let trays sit out for a few minutes so pupsicles will easily slide out. Remove pupsicles from cups/trays. Paper cups can be torn. Then, give to your dog!
